Early Assessment and Resolution

Although going to trial for our clients is our passion, we recognize that disputes often need to be resolved in a manner short of trial. As a part of every engagement, we counsel our clients on the best strategies to avoid litigation where possible. If litigation is inevitable, we work closely with our clients to devise a strategy to maximize the possibility of successful early resolution and handle the matter in an effective and cost efficient manner. This process includes a thorough analysis of the client's objectives, constraints and the strategic importance of all relevant issues both at the beginning of the dispute and throughout the case.
