Seigfreid Bingham Participates in the KCMBF and PREP-KC’s SLA Job Shadow Program

Seigfreid Bingham was pleased to recently host two students from the Student Law Academy (SLA) Job Shadow Program. Several of our attorneys and staff spent time mentoring our guests by sharing insights into the field of law.

The Kansas City Metropolitan Bar Foundation (KCMBF) and the Partnership for Regional Educational Preparation-Kansas City (PREP-KC) created the SLA, which provides students the opportunity for exposure to all types of careers in the legal profession and an overview of the justice system.

While the students were with our firm, they learned about all aspects of the legal industry, including our structure and practice groups, career paths and readiness, courtroom tips, marketing, and law firm best practices. Our attorneys also assisted them with mock trial preparation and their other SLA assignments.
