United Way Workplace Campaign – 2023

Seigfreid Bingham recently participated in the 2023 United Way workplace campaign, “United by You.” This organization focuses on improving the health, education, and financial stability of every member in the places it serves and “advances the common good in communities across the world.”

The workplace campaign brought together attorneys and staff at our firm to support the efforts of the Kansas City branch of United Way, which helps one in three Kansas Citians each year.

After a week of pledging to the cause, our office raised over $10,000, supporting the United Way and its mission to build equitable communities.
